Institute changes to policies and guidelines

Levels of Influence
Equitable Innovation Ecosystem

“

Innovation flourishes best when a diverse mix of talent, experience and backgrounds is brought to the table. The PittEI3 program can invite new people and perspectives into the process and strengthen the culture of innovation and entrepreneurship that is gathering momentum across the University .

Impressive collaboration across campus creates what can become the preeminent model for inclusive innovation across the national higher education landscape.

Joan Gabel

Chancellor, University of Pittsburgh

“

An authentic, inclusive organizational blueprint that aligns people, principles, purpose, and profit will lead to sustainable engagement in academic innovation.

Cecelia Yates

Director, Pitt E³ Equitable Inclusive
Innovation Incubator, Faculty
Fellowship Program

“

Pitt has cultivated a robust culture of innovation and entrepreneurship. However, women and other historically excluded people are not yet participating at the levels they are capable. Through PittEI3 , we aim to strengthen our innovation ecosystem by increasing its diversity.

Peter Allen
Executive Director of Inventor
Engagement and New Ventures at the
Office of Innovation and Entrepreneurship.
